

Emergency Medical Services Coverage

Where do the experts go when they need help? To experts.

Our case management model has saved clients millions of dollars each year.

- **Reduced** workers' compensation costs to **2/3 below industry standard.**

– *Leading Regional Medical System client*

- **Reduced** future liability by **\$9.4 million** in 2008 alone.

– *County Government client*

- **Reduced** workers' compensation costs to **\$4 million under budget** and **reduced future liability \$14 million** in a single year.

– *City Government client*

- Resulted in **cost savings of more than \$8 million** over the last 9 years in workers' compensation costs alone.

– *Public Transportation client*

With nearly 14 years' experience as a Third Party Administrator for some of the largest employers in the region, WorkPartners provides organizations with the expertise to successfully develop, measure, and maintain effective health and productivity strategies.

Our specialized Emergency Medical Services (EMS) Workers' Compensation program is tailored to the EMS industry and customized to meet each organization's specific requirements.

Assess. Measure. Contain.

WorkPartners uses a proactive approach – we take an active interest in your organization and can even help stop a claim before it happens. We will collaboratively assess current claims, identify measurable goals and objectives, and provide customized containment strategies, including:

- Risk control and reduction
- Workplace safety awareness
- Administrative burden relief
- Claims management efficiencies
- Return-to-work management
- Program management
- Integrated medical delivery
- Easily understood analytic reporting

Finding the right business partner with the right expertise is a key part of creating a cost containment solution.

The WorkPartners difference is our full complement of world renowned in-house resources. Our staff includes risk control specialists, safety directors, claims adjusters, exercise physiologists, physical therapists, nurses, physicians, behavioral specialists, medical directors, registered dietitians, health and wellness experts, operations professionals, and IT and analytics experts.

We also provide ongoing review and recommendations on existing workers' compensation panels, trend analysis, accident investigation, and/or training to help proactively identify areas for improvement.
