

Commercial Services

Our commercial wastewater services include vacuum truck pumping of a variety of products and services including:

- * Holding tank
- * Lift stations
- * Digesters
- * Portable toilets
- * Aqua Flush systems
- * Fresh water systems

Mr. John septic guarantees that all liquid and solid waste material pumped from your holding tank will be transported and disposed of at an E.P.A. registered and approved disposal facility. Mr. John's goal is to provide quality service at a reasonable price and to protect the environment of our valued customers and their families.
