

Heater

Mr. John heater units help maintain worker morale and productivity during the cold winter conditions of Western Pennsylvania, Ohio, and West Virginia. To maintain a more comfortable and productive work environment, heater units can be added to new orders or standard units already on site.

Features:

- * Wall mounted
- * Auto-safety shut off
- * Comfort control thermostat
- * Two (2) wattage settings

Specifications:

- * Length: 14.6"
- * Width: 10.3"
- * Depth: 7.7"

Applications: Construction, Long-Term

Related Products: Standard, Guardian, Trifecta

Sensor Light

An LED sensor light can be added to any of our units upon request to add visibility in the dark. This option is a great addition for parties and events that will run into the evening hours.

Features:

- * Motion sensor activated
- * LED light
- * Uses 3 AAA batteries

Specifications:

- * Length: 5.5"
- * Width: 2.25"
- * Depth: 1.25"

Applications: Special Event, Weddings, Seasonal

Related Products: Flush, Privacy Lattice, Family Room, Wheelchair Accessible
