

The Portable Sanitation Association International Announces the . . .

Service Technician of the Year

2005 Winner

Anna Karin; Mr. John of Pittsburgh; was selected the First Place Winner for the 2005 Service Tech of the Year. The award and a \$1,000.00 check were presented at the Convention and Trade Show by Kathy Duck in Ontario, California.

I want to thank the PSAI Committee for selecting me for service technician of the year. It is a wonderful honor to receive this award and that you recognize us drivers and the work that we do.

It is a great privilege to work for Mr. John of Pittsburgh with all of the support that I receive from the office personnel, shop and my fellow drivers to whom I work with.

I want to say a special thank you to Michael McCarthy, Jeff Wolfarth, Red Smith, Chris McCarthy, Kim Charlton and Paul Ball for supporting me; without you I wouldn't be where I am today. It is important to me to provide the best service and to satisfy my customers for they are our business.

Anna Karin

Mr. John of Pittsburgh

2nd Place Winner

Anthony Carroll; Crosier's Sanitary Service Inc.; Ansted, West Virginia, was presented with a plaque and a \$500 check as the 2005 Runner-Up Service Tech Award in Ontario, California.

When I first started, I had some misgivings about this job as most people would. After I started, I soon found Ron Crosier and his family to be very professional, honorable, and intel-

ligent. The more Ron showed me about this industry, the more I began to see the same in others involved in it.

This is the first industry I've seen where companies are willing to help each other in sharing ideas, problems, and the answers to them. I find the people in this industry to be, like Ron, professional, intelligent, and innovative.

Anthony Carroll

Crosier's Sanitary Service

The PSAI Service Tech Award is to acknowledge that Service Technicians have a great influence on the success of our industry.

By demonstrating behaviors that actively embody the highest standards of our industry and reduce the likelihood of injury to themselves and others, they contribute not only to human values, but to the overall health and safety of the industry.

The PSAI members and the Board of Directors wish to extend their congratulations to Anna and Anthony
